

Daniel S Massey

COO - Vorstand | w-tec AG

Short Vita:

Daniel has 15+ years of experience in the IT Infrastructure and IT Security industry. He has a postgraduate degree in Business & Information Technology and holds various industry security and management certifications. He has held commercial and technical management positions in the Airline and Finance industries, and is Chief Operative Officer of wtec's European operations.

At w-tec AG Daniel successfully built up their pan-European Network Service Delivery, IT Infrastructure & Data Centre Divisions, and has been leading the company's strong growth since 2009.

Daniel is a Lecturer in IT Security at the FOM University for Applied Sciences in Frankfurt. His academic interests are in European Union & Economy, Open Innovation and the Psychology of IT Security. British born, he has lived and worked in several European countries and is currently based in Frankfurt.

"Two things drive us here at wtec:
the love of technology and
making customers happy."
